

INVITATION

Welcome to the :

5th GESD Laboratory Scientific day

Theme

15 March 2022

Advances in Environmental Sciences & Valorization of Research Results »

The 5th GESD Laboratory Scientific day is a great opportunity for the young scientists, to discuss, with their supervisors and teachers, the latest advances in environmental sciences. Its aims to give the PhD students a solid background in life sciences and allow them to create value from their results and to build a successful research career.

The following topics will be covered during the Scientific Day :

03 Keynote Speakers :

I : Innovations in Environmental Biotechnology

Pr. MELIANI A.

II : Advances in biodiversity and natural resources management

Dr. BELGHERBI B.

III : Valorization of research results

Pr. BENARBA B.

PhD Verbal communication posters

Conference/ Debate and open discussion with PhD and Master's students of Agronomy and Biology

The scientific day will take place, in the faculty library, on Tuesday, march 15th at **9:00 a.m**

* Meeting Sanitary Rules : mask wearing and physical distancing
